

Stat 110 - Lecture 6

Joe Roith

September 24, 2019

Time/Location

Tuesdays: 11:45 - 1:10 PM (85 min)

RNS 210

Previous class

Finally finished with study design and articles, sampling techniques, etc. There may be lingering questions about confounding/interacting variables (**Confounding vars. - not measured/collected. Interacting vars. - collected/displayed interactions**). Did not get to the quiz, so need to start class with short table quiz.
